

Eastern Electrical Systems | 1019 State Rt 72 N, Lebanon, PA 17042 | 717-272-2981

Low-Voltage / Fire & Security Technician

Eastern Electrical Systems is a growing, certified **Honeywell Notifier and Xtralis dealer** seeking experienced and motivated technicians to join our team. We are looking for technicians with experience in **Access Control, Video Surveillance/Security Systems, and/or Fire Alarm Systems** for commercial projects.

This is a **full-time, safety-sensitive position** responsible for installing, servicing, and maintaining low-voltage life safety and security systems in commercial environments. The position may require **frequent travel**, including occasional overnight stays (paid per diem provided).

Position Summary

The Low-Voltage Technician performs installation, service, maintenance, and repair of fire alarm, security, video surveillance, and access control systems. Technicians work independently or with a team to deliver clean, code-compliant installations while maintaining a strong focus on safety, quality, and customer satisfaction.

Key Responsibilities

Experienced Technicians

Pay Rate: \$25–\$35/hour or Prevailing Wage (based on experience)

- Install and wire access control panels, card readers, maglocks, electric strikes, and surveillance cameras
- Mount, aim, and adjust cameras to ensure optimal coverage and image clarity

- Pull, label, and terminate low-voltage cabling (CAT6, shielded cable, etc.)
 - Identify code violations and correct system non-compliance issues
 - Configure, program, and test access control and video systems with minimal supervision
 - Follow installation drawings and coordinate with Project Managers to complete projects efficiently
 - Install system components, including drilling and routing cabling to all required locations
 - Ensure all wiring and installations meet applicable codes, safety standards, and customer requirements
 - Test and inspect systems to verify proper operation and compliance
 - Provide basic end-user training and system orientation
 - Document work completed and report deficiencies as required
-

Skills, Experience & Qualifications

- **2+ years of experience** in one or more of the following:
 - Access Control
 - Video Surveillance / Security Systems
 - Fire Alarm Systems
 - Experience with security platforms such as **Avigilon, Axis, Lenel, HID**, or similar (preferred)
 - Experience with fire alarm systems such as **Notifier by Honeywell, Silent Knight, Fire-Lite, Xtralis ASD, Simplex, or Siemens**
 - **NICET Certification** (Level I or higher preferred, or willingness to obtain)
 - Strong work ethic, communication skills, and attention to detail
 - Team-oriented mindset with a commitment to safety and professionalism
 - Valid driver's license and reliable transportation
 - Ability to pass a background check
-

Physical Requirements

- Ability to navigate active construction sites with uneven terrain
 - Ability to climb ladders, stairs, and work at heights
 - Lift up to **50 pounds** and push/pull up to **100 pounds**
 - Ability to stand, walk, bend, kneel, crouch, crawl, and balance regularly
 - Manual dexterity for handling tools and wiring
 - Vision requirements include close, distance, color, peripheral vision, depth perception, and focus
 - Ability to communicate effectively (talk and hear)
-

Safety Requirements

This position is considered **safety-sensitive**. Employees are required to wear appropriate PPE, including safety glasses, gloves, hearing protection, hard hats, and other job-specific protective equipment.
